

THERAPY ABROAD

WWW.THERAPYABROAD.ORG

I learned about a new culture that exemplifies diversity. The hands-on experience allowed me to gain both knowledge and confidence as a future SLP. My favorite part was seeing first-hand the impact we made on the community. I will forever remember my time in the wonderful country of Belize. –D. Gregory, Biola University, 2017

A Program Just For You!

Therapy Abroad and the Biola Communications Sciences & Disorders program have designed a 9-Day faculty-led program For July 11-19, 2020!

This service program was designed for students who want to take advantage of working alongside professional ASHA accredited speech-language pathologists (SLPs), and Biola Faculty in order to gain hands-on experience in a real world setting, give back to a community in need and practice, observe, and learn more about speech-language pathology, gain deeper insight into grad school curriculum, travel and learn more about a new culture.

In 2020, Therapy Abroad is excited to announce that our team from Biola will be working with a ministry in Belize, called [Kabod International](#) to provide speech and language services for [Camp Mighty!](#) Camp Mighty is a special needs family camp started in 2014. This will be the first time the camp has had professional SLPs and students to screen, evaluate, and provide therapy. We are really excited about this opportunity and hope you will join us this year. If you have any questions, please email admissions@therapyabroad.org.

This program is limited to 12 students. Applications will be accepted on a first come basis.

“I was working with a boy with low functioning Autism – an experience I’ve never had before. He was keeping to himself and I was just observing him. With the help of amazing staff, I learned how to enter his world, and even more, how to elicit language. It was phenomenal and I feel so lucky to have gotten this experience and learn this at such an early time in my undergrad career.” –S. Mears, Biola University, 2018
